THREE-CENT FARES.

The New Law Ignored by the Streetcar Company.

INDIANAPOLIS, April 16.—The 8-cent fare law went into effect in this city yesterday on the street railway. The company, it is said, gave instructions to its conductors to the effect if a passenger tendered them 8-cent fare to refuse it and, if necessary, to stop the car until 5 cents was paid. A number of citizens were ejected for refusing to pay more than 3 cents, among the number being Police Judge Cox. One conductor was arrested for assault for ejecting a passenger. The penalty for conductor refusing a fare is \$50 to \$100.

SHOT FROM AMBUSH.

Father and Son Fire on Moonshiners Destroying Their Property.

WRIGHT, Ky., April 16.—Reports have been received here of a battle with moonshiners near the Kentucky and Virginia line. The shiners accused James Mullin, a wealthy farmer, with having informed United States revenue officers of the location of an illicit still. The moonshiners set Mullin's barn and haystacks afire, mutilated some horses and cattle, and then started to attack the house. Mullin and his two sons, armed with Winchester, quietly left their house, and from ambush fired a volley square into the ranks of the shiners. Many shots were then exchanged. A number of the shiners were wounded, as was evident by the finding of pools of blood. The Mullins escaped injury and the shiners made a retreat.

GOVERNOR THOMAS.

Found Guilty of the Oleomargarine Charge and Fined.

DAYTON, O., April 16.—Colonel J. B. Thomas, governor of the National Military home, appeared before Squire Thompson to answer the charge of issuing oleomargarine to the inmates of the home without displaying the placard required by law. The case was submitted upon an agreed statement of facts, upon which the court fined Thomas \$50 and costs, which the latter refused to pay and was remanded to the custody of an officer. The case will be immediately taken to the United States court, as Governor Thomas denies the jurisdiction of the trial court.

The funeral services were held in the St. Stephens church, Rev. John E. Sulzer officiating. The burial took place at Highland Lawn cemetery and was under the direction of the Masonic fraternity. There were many distinguished visitors present from all over the state.

OUR ORIENTAL TRADE

Bill to Popularize Our Bread Foods With China and Japan.

INVESTIGATING CIVIL SERVICE.

Senator Davis Fails to Get a Day Set For Final Vote on Arbitration Treaty—Lieutenant Perry to Go to Mare Island. Illness of Representative William H. Holman—Indiana Postmasters.

WASHINGTON, April 16.—Senator Hansbrough of North Dakota has introduced a bill authorizing the appointment of a commission to introduce and popularize the bread foods of the United States among the people of the Orient. It provides that the commission shall consist of three persons to be known as the bread-foods commission of the United States and to be under the direction and control of the secretary of agriculture. The commission shall ascertain and from time to time report to the secretary of agriculture upon the best modes of introducing and popularizing the bread foods of the United States among the people of oriental countries. The salary of each of said commissioners shall be \$5,000 a year, and the commission is authorized to employ a secretary at \$3,000, and \$30,000 is appropriated to defray the expenses of said commission in the prosecution of its work. Senator Hansbrough says that the measure is designed to further the work of extending the trade of the United States with China and Japan and was suggested by the letter recently sent to him by James J. Hill, president of the Great Northern railroad on the subject of trade with the Orient.

CIVIL SERVICE LAW.

Senate Committee Will Enter Upon a Thorough Investigation.

WASHINGTON, April 16.—The senate committee on civil service, of which Senator Pritchard is chairman, has decided to enter upon a thorough investigation of the extent to which the civil service law is enforced and the effect of its enforcement in promoting the public welfare. Circulars are to be sent to the various heads of departments asking replies to the following questions: To what extent have civil service rules been promulgated in your department? To what extent, in your opinion, should collectors of internal revenue and United States marshals be included in the classified service? Should the existing rules of the civil service be modified? Should the civil service law be amended, continued or repealed? The investigation is to take place under the authority conferred by the Allen resolution and will be conducted by a subcommittee consisting of Senators Pritchard, Elkins and Chilton.

ARBITRATION TREATY.

WASHINGTON, April 16.—In accordance with his previous notice Senator Davis promptly moved an executive session of the senate after the disposal of the routine morning business yesterday, for the purpose of taking up the Anglo-American arbitration treaty. He endeavored to secure an agreement upon a time to take a vote upon the treaty as a whole, but in this he did not succeed, but when the executive session concluded there was an understanding that Senator Davis would renew his request on next Monday and then there would probably be no objection to fixing a date.

GRANTED A WRIT OF ERROR.

WASHINGTON, April 16.—Judge Harlan allowed a writ of error yesterday in the case of Elizabeth Nobles of Georgia, under sentence of death for murder and who was to have been hanged next

Friday. It was represented by Mrs. Nobles' counsel that she is insane. The allowance of the writ will operate as a stay of proceedings and will insure postponement of the execution.

Representative Holman.

WASHINGTON, April 16.—Representative Holman of Indiana, who has been ill with an attack of stomach trouble for the last 10 days, was reported better last night. He is still quite weak but is able again to take solid food. There is nothing alarming in his condition, though it will be some days before he can resume his duties at the capitol.

ORDERED TO MARE ISLAND.

Lieutenant Perry, Arctic Explorer, To Leave the New York Navyyard.

WASHINGTON, April 16.—The navy department is in a ferment over an order to Lieutenant Perry, the Arctic explorer, to leave the New York navyyard and take up his station at Mare Island, Cal. Just at this moment the officer's friends, and persons taking an active interest in polar expeditions, are engaged in raising a fund in New York to defray the expense of another expedition to be conducted by Lieutenant Perry into the far north. Scientists are urging Secretary Long to allow the officer to remain in New York for a time and then go on leave of absence while conducting the polar expedition.

Judge Storow Dead.

WASHINGTON, April 16.—Judge James J. Storow, a lawyer of Boston, dropped dead while at the congressional library yesterday.

NO ELECTION YET.

Kentucky Legislature Continues the Deadlock on the Senatorship.

FRANKFORT, Ky., April 16.—The gold Democrats held no caucus last night and the programme for senatorial ballots today is the same as that of the past two days. Hunter's chief lieutenant said to a press representative that he had no idea of ever withdrawing; that he might do so if it was requested or suggested by the administration, but intimated that they had the best of reason for believing that no such request or suggestion will ever come. Blackburn's forces are confident that the deadlock will last if Hunter remains on the track, as the gold men are practically committed to never voting for him, and they will go so far as to lend him encouragement rather than see him quit the track and ruin their plans for "no election till next winter."

THE GRAND JURY ADJOURNED AGAIN LAST NIGHT WITHOUT MAKING ANY REPORT, BUT WERE VERY BUSY ALL DAY.

TEXAS TAXES.

Drastic Anticorporation Legislation in the Lone Star State.

AUSTIN, April 16.—The senate of the Texas legislature yesterday passed some very drastic anticorporation legislation by the passage of a bill taxing life insurance companies 2 per cent annual tax on their gross earnings and fire and fidelity companies 1 per cent. They also tax dining and sleeping cars 10 cents for every 100 miles traveled. The bill also provides a franchise tax of \$50 on all foreign corporations with a capital stock of \$100,000 and \$1 for every \$10,000 additional capital stock.

CHINESE GOING TO CUBA.

MONTREAL, April 16.—A party of 91 Chinese arrived in Montreal by the Canadian Pacific railway from China via Vancouver. Today they continued their journey to Havana, where they are going to work on the sugar plantations of Cuba. They say they are going over at the instance of the Spanish government, which has sent agents to China to induce immigration to Cuba.

Bryan in Ohio.

CINCINNATI, O., April 16.—The Hon. William J. Bryan last night addressed over 4,000 people at Music hall who had paid 25 and 50 cents admission. His lecture was on bimetalism and it was delivered under the auspices of the Ohio Valley Bimetallic league. After the oration he was given a banquet by members of the league.

Cavein at a Mine.

YORKVILLE, O., April 16.—The hill immediately over the mouth of the coalmines here gave way and 7,000 tons of dirt and rock crashed down, completely closing up the entrance and breaking down the roadway for 100 feet. A driver named Jeffery was embedded but was rescued.

STILL APPREHENSIVE

Situation Between Vicksburg and New Orleans in the Flooded Country.

PLOWING IN SUNFLOWER COUNTY

In the Bolivar District Twenty-Two Thousand People Will Have to Live on Charity—Love Breaks at Thibodeaux, La.—Muddy Missouri Cutting Into the Dykes at Omaha.

MEMPHIS, April 16.—While the condition of the affairs in the overflowed Mississippi delta is reported brighter, the situation between Vicksburg and New Orleans is causing the greatest apprehension. The river continues to rise in the Louisiana levee district and weak spots in the levee are being strengthened and watched day and night.

O. C. Stubblefield, the country correspondent of the agricultural department for the United States government at Indianola, Miss., says the suffering in Sunflower county, which forms part of the delta, has been greatly alleviated and that most of the county now is dry. Farmers are busy plowing and planting cotton and if matters grow no worse that county will not require any assistance from the government.

Statistics of the number of flood sufferers in Bolivar county, compiled by a committee appointed to look after the distribution of the government provisions, show 22,000 people who are now or soon will have to be fed by the hand of charity, in addition to 3,000 head of live stock. The water at Rosedale has not receded. The first train that has entered Clarksdale for many days arrived there yesterday. At Greenville the river remains stationary. The weather throughout the delta is clear and pleasant.

Muddy Missouri.

Situation Grave at Omaha, Neb.—Flood Cutting the Dykes.

OMAHA, April 16.—The flood situation is a grave one. All day yesterday the torrents poured from the Missouri across the north Omaha gardens into Florence and Cut off lakes. The former has lost its identity in the general flood, and the latter may soon. It is seven feet higher than it was on Tuesday morning, and is surely cutting away the dykes that hold it back from sweeping in to join the Missouri and turn the long and abandoned course of that stream again into use.

The streams running into Cut-off lake from the north have been increased in volume but no longer has a bank to tumble over. The water in the lake has risen to the level of the water above, and the whole flood is spending itself against the first of the dykes at the foot of the lake. This is still above the surface of the water, but the waves cut it terribly during yesterday and it may soon give away.

At New Orleans.

NEW ORLEANS, April 16.—The closest attention is being paid to the river here. While there is uneasiness there is no particular alarm felt at the present high waters. There is much inconvenience commercially and the local ferries are in straits to maintain regular service. The authorities are doing everything in their power to relieve the present emergency strain but it is thoroughly comprehended that there is little to be done except to wait for further developments and be ready to cope with any trouble that may possibly arise.

Another Crevasse.

THIBODEAUX, La., April 16.—A crevasse occurred yesterday at Leon Babin, one mile below LaFourche crossing, westside. It will inundate the section between bayous LaFourche and Terre Bonne from Price's Acadia plantation to the gulf. The water fell 15 inches at Thibodeaux in six hours.

Rising at Vermilion.

VERMILION, S. D., April 16.—There is a further rise in the Missouri river at

SWINDLER CAUGHT.

William S. Thompson of an Alleged Chicago Bicycle Firm Arrested.

NEW YORK, April 16.—William S. Thompson, who was indicted in Chicago last October for carrying on swindling operations through the mails, has been arrested here and is held in \$2,500 bail for hearing. It is alleged that Thompson sent out letters offering to send a bicycle worth \$100 upon receipt of \$45. Persons who sent money claim that they never heard anything more from Thompson. The concern of which Thompson was the head sent out circulars offering a prize to the person making the greatest number of words out of the letters in the title "Empress Bicycle." Later they sent out another circular to those who failed to win offering them a \$100 bicycle for \$45. The concern obtained about \$50,000 from the swindle.

Will Not Retaliate.

MEXICO CITY, April 16.—The reports published in the United States that the Mexican government intends, in case of the passage of the tariff bill, instituting retaliatory measures was authoritatively denounced by the Mexican Herald today. Certain provisions in the bill will if enacted into law bring American capital here and will redound to the benefit of the country. Mexico regards the action of the American congress with perfect lack of apprehension.

Case Against the Danless Dismissed.

JACKSONVILLE, Fla., April 16.—The case against the steamer Danless for violation of the navigation laws, in that it was not provided with the proper number of lifeboats, came up for trial in the United States district court yesterday, and after hearing the evidence Judge Locke promptly rendered a decision dismissing the case.

MRS. TILTON DEAD.

She Died Tuesday but the News Was Kept a Secret.

NEW YORK, April 16.—Mrs. Elizabeth R. Tilton, the wife of Henry Ward Beecher's accuser, died on Tuesday, last, at her home in Brooklyn. The news of her death was not made public until late yesterday. Since the famous Beecher trial she had lived in strict retirement. In recent years she had shared her home with her widowed daughter. Even the fact of her death was kept secret, and there were no external signs of mourning about the house where the body laid. Theodore Tilton, her husband, is in Paris, where he has lived ever since the Beecher trial.

For a long time Mrs. Tilton was almost totally blind, but less than a year ago she underwent a difficult operation and regained her sight. Then about a month ago she suffered a paralytic stroke, from which she was slowly recovering when in the latter part of last week, she was again stricken. The funeral services were held last night. The interment took place today.

LOWER RATES.

Some of the Western Roads Advocating Them to Increase Travel.

CHICAGO, April 15.—Some of the western roads are openly advocating a reduction in passenger rates to what they term an "emergency basis." They say the passenger business is dead and that some measures are needed to increase the volume of traffic. The opponents of lower fares say that if the rates are reduced there may be some trouble in view of the supreme court decision in getting the rates back to their old basis again without taking some action that would be inadvisable at the present time for the reason that it will give the various legislatures of the western states an idea that the roads can make money with the rates at a lower point than they now are and that hostile legislation will ensue.

SULLIVAN IN EARNST.

John L. Determined to Have a Go With Fitzsimmons If Possible.

BOSTON, April 16.—Shortly after John L. Sullivan returned from Carson City, his manager, Frank V. Dunn, posted \$1,000 with a Boston paper to bind a match with Champion Fitzsimmons. Up to date no notice has been taken of it. The Sullivan people mean business, it is claimed, and this money will be drawn and placed with some New York paper.

Manager Dunn is sick and has empowered Nelse Innes, sporting editor of the Boston Herald to go to New York and challenge Fitzsimmons over again in behalf of John L. Sullivan. Dunn will make a \$5,000 bet that Sullivan wins. Sullivan is anxious to fight Fitzsimmons in March, next year, to a finish and for the largest purse offered by any club.

THOUGHTFUL WEYLER.

Hit Upon a Scheme to Prevent Troops From Shooting Women and Children.

HAVANA, April 16.—In view of the approach of the rainy season, Captain General Weyler has ordered the erection of an infirmary on the trocha and the extension of military hospitals. New hospitals will be constructed under the supervision of the sanitary inspector general at Trinidad, Casilda, Isabela and Sagua.

The captain general has ordered the demolition of all houses inside the cultivation zone. This is on the theory that the peasants will remain at night in the blockhouses and remove their families to the town. In this way, says General Weyler, the regulars will not be exposed to the risk, in case of insurgent aggression, of shooting women and children.

Stated Their Grievances.

Several laboring men met in the city building last night to take further action against the Italians employed by the B. & O. S. W. railroad making repairs west of this city. Several speeches were made by those present and a committee appointed to wait on the foreman of the gang and present their grievances. This committee was composed of E. L. Lufus and George Harris. They waited on the foreman this forenoon and told him that trouble was ahead unless the Italians were at once withdrawn. Deafness Cannot Be Cured. By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result and unless the inflammation can be taken out, and this tube restored to its normal condition or hearing will be destroyed forever, nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Props., Toledo, O. Here is a diamond, here a piece of charcoal. Both Carbon; yet between them stands the mightiest of magicians—Nature. The food on your table, and your own body; elemently the same; yet between the two stands digestion, the arbiter of growth or decline, life or death.

We cannot make a diamond; we cannot make flesh, blood and bone. No. But by means of the Shaker Digestive Cordial we can enable the stomach to digest food which would otherwise ferment and poison the system. In all forms of dyspepsia and incipient consumption, with weakness, loss of flesh, thin blood, nervous prostration the Cordial is the successful remedy. Taken with food it relieves at once. It nourishes, and assists nature to nourish. A trial bottle—enough to show its merits—10 cents. Laxol is the best medicine for children. Doctors recommend it in place of Castor Oil.

Neuralgia of the Heart

Vanquished by Dr. Miles' Remedies.

MRS. SIDLEY, of Torrington, Conn., suffered from just such a complication of diseases as the extensive experience and investigations of Dr. Miles have proven, result from impairment of the nervous system. Mr. J. B. Sidley writes Oct. 23, 1896: "My wife was taken sick with neuralgia of the heart, nervous exhaustion and liver trouble. Although attended by two physicians she grew worse, until she was at death's door. I then began giving her Dr. Miles' Restorative Nervine and Dr. Miles' New Heart Cure, and she improved so wonderfully that I at once dismissed the physicians. She now eats and sleeps well and does her own housework. We have recommended your remedies to a great many in our city, and every one has been very much benefited by them."

Dr. Miles' Restorative Nervine and Dr. Miles' New Heart Cure are sold by all druggists and money refunded. Book on Heart and Nerves sent free to all applicants.

Arbitration of Labor Disputes.

One of the acts of the last legislature creates a labor commission of two members appointed by the governor. It is made the duty of these commissioners, when they receive information of the existence of a strike, lock-out, boycott, or other labor complication affecting the labor or employment of fifty persons or more, to go to the place where the trouble exists and offer their service as mediators. If they can not bring about an amicable settlement in this way they shall endeavor to induce the parties to submit their difficulties to arbitration. If arbitration is consented to the labor commissioners and the judge of the circuit court in the county where the trouble exists shall constitute the board of arbitration. The agreement to arbitrate must be in writing and signed by the employer or his representative, and signed by the employer or his representative and no less than two thirds of the striking employees.

The finding of the arbitrators must be recorded in the office of the clerk of the circuit court. After the finding is made both parties to the controversy must abide by it, and failing to do so may be punished by the court for contempt.

In case of a labor controversy in which the labor commission is unable to adjust the difficulties, and in which the parties to the controversy refuse to submit to arbitration, it is made the duty of the commission to investigate and learn the facts attending the disagreement. They are given power to enforce the presence of witnesses and to take sworn statements. When such an investigation is completed they are to report in a condensed form their finding to the governor, who can at once give out the report for publication.

Such a law can be made of the great value to both laborers and manufacturers. Advanced thought everywhere encourages arbitration in matters of difference between nations as well as individuals.

Senator Fairbanks receives credit for being one of the hardest working members of the upper house of congress.

The silver democrats gave many Jeffersonian banquets, but Bryan was given more honor at most of these meetings than Jefferson.

Ex-Senator BRICE very wisely concludes and so announces that he is out of politics. He can now claim his residence in New York for business reasons if he so desires.

The Wichita Eagle says: "The feeling in Kentucky is that that legislature should be given in charge of the sheriff and the sheriff overpowered." If hanging were adequate punishment the legislature has already paid the penalty. It has been hung up as effectually as Ku-Klux could have done it.

W. J. BRYAN who was and still is a popocratic candidate, says the election of the democratic tickets in Chicago, Cincinnati and other cities was due to the "free silver issue." Arthur Sewall, one of his former running mates, says the results were due to "local issues" only. A remarkable difference of opinion, but Sewall does not hope for vindication in 1900.

NATHANIEL C. FOWLER a well known writer on advertising puts a point well as follows: "Nobody likes to part with his money and the kind of advertising that makes him do it is that which tell an honest story briefly and apparently in the interest of the man who is to spend the money as well as in the interest of the man who is to receive the money."

WOMAN'S LONG HOURS.

SHE TOILS AFTER MAN'S DAYS WORK IS DONE.

What She Has to Contend With—Work That Sooner or Later Breaks Down Her Delicate Organism.

The great majority of women "work to live" and "live to work," and as the hands of the clock approach the hour of six, those employed in stores, offices, mills and factories, hail closing time with joy. They have won their day's bread, but some duties are yet to be performed, and many personal matters to be attended to. They have mending to do, and dresses or bonnets to make, and long into the night they toil, for they must look neat, and they have no time during the day to attend to personal matters.

Women, therefore, notwithstanding their delicate organism, work longer and more closely than men.

They do not promptly heed such signs as headache, backache, blues, pains in the groins, bearing-down, "all gone" feeling, nervousness, loss of sleep and appetite, whites, irregular and painful monthly periods, cold and swollen feet, etc., all symptoms of womb trouble, which, if not quickly checked, will launch them in a sea of misery.

There is but one absolute remedy for all those ills. Any woman who has to earn her own living will find it profitable to keep her system fortified with this tried and true woman's friend, Lydia E. Pinkham's Vegetable Compound, which removes the cause and effects a lasting cure.

We are glad to produce such letters as the following from Miss M. G. McNamee, 114 Catherine St., Utica, N. Y.:

"For months I had been afflicted with that tired feeling, no ambition, no appetite, and a heavy bearing-down feeling of the uterus. I began to use Lydia E. Pinkham's Vegetable Compound. Soon those bad feelings passed away; I began to have more ambition, my appetite improved and I gained rapidly in every way, and now I am entirely well. I advise all my friends to use the Compound, it is woman's truest friend."

The charge against students of the State University that they have been using printed stationery reflecting on Depauw University, besides showing their own tendency towards profanity does these young men no credit whatever. President Swain who has an ambition to have a state university student in every high school in the state may well be aroused to the extent of taking such extreme measures as "openly rebuking the assembled students."

The people in the northern part of the state are now daily watching the movements of what appears to them as an air ship. They have seen it so vividly as to be able to give the color of the aerial vessel. They have been close enough to it to hear the flap of its white wings and to count the number of people on board. Some people down this way are so uncharitable as to suspicion that these pious brethren in the northern part of the state have been out late, that they have indulged to that extent when the eye beholds more wondrous and a thing things at times than a white winged air ship. There have been men in the southern part of the state farther south than Seymour, who have seen sights no less wonderful than an airship.

One of Milton's biographers says that nearly 20 years elapsed between the sketching out of the plan of "Paradise Lost" and the completion of that work. The actual labor of composition was condensed into three years.

Cave in at a Mine.

YORKVILLE, O., April 16.—The hill immediately over the mouth of the coal mines here gave way and 7,000 tons of dirt and rock crashed down, completely closing up the entrance and breaking down the arched way for 100 feet. A driver named Jeffery was entombed but was rescued.

A BIT OF HISTORY.

Germantown, Pa., Was Once Called the Capital of the Country.

A pupil in the Boys' Grammar school, on Lafayette street, Germantown, was asked by his teacher "when the first congress occupied the Germantown academy, located on West School lane."

It was a puzzle, of course, to the young scholar, who was at a loss to find anything in print verifying such an event. The facts, however, from which the false impression has frequently obtained are as follows: The government of the United States was first inaugurated in New York in 1789, but by

Deafness Cannot Be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out, and this tube restored to its normal condition or hearing will be destroyed forever, nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Props., Toledo, O. Sold by druggists, 75 cents. Hall's Family Pills are the best.

Here is a diamond, here a piece of charcoal. Both Carbon; yet between them stands the mightiest of magicians—Nature. The food on your table, and your own body; elementally the same; yet between the two stands digestion, the arbiter of growth or decline, life or death.

We cannot make a diamond; we cannot make flesh, blood and bone. No. But by means of the Shaker Digestive Cordial we can enable the stomach to digest food which would otherwise ferment and poison the system. In all forms of dyspepsia and incipient consumption, with weakness, loss of flesh, thin blood, nervous prostration the Cordial is the successful remedy. Taken with food it relieves at once. It nourishes, and assists nature to nourish. A trial bottle—enough to show its merits—10 cents. Laxol is the best medicine for children. Doctors recommend it in place of Castor Oil.
